This is #Scientology. Threats against Chrissie Bixler and her husband and young children. Threats of breaking into their house and planting drugs to get them arrested and kids taken away. Accusing them of child abuse. @LAPDHQ get out of Scientology's pockets and DO. YOUR. JOB.

house, plant drugs and drop dimes and on their children go to foster care where they will be drugged on psych drugs and sexually abused. That's if they don't smoke pot recreationally? If they do and her husband looks like he does, the private dix will drop dimes with child services and prove it in court legally along with pictures of him doing the drugs and if she does too, then her too, photos and videos of both of these people doing drugs and a history of doing drugs long term, not one video or one photo.

That's not illegal, you're suppose to report parents who are doing drugs to child services, they are putting their children at risk and there might also be abuse going on in the house, abuse of the children including sexual either by the parents or their friends they are doing drugs with.

This Anne chick can't wait for federal court. But until then, I hope you find some peace in your life. You seem to need it after all Scientology has put you through. I wish you a peaceful weekend. ✌🏻

Yep. Her racism is out there for the whole world to see, along with her blatant desire to see us killed so she can "make money off our dead bodies". You may not have directly threatened to kill us, Kathy, but you clearly want us dead. Inciting violence is also illegal, by the way

Actually I'm not because I've seen these cases play out and 90% of the time the abuser gets put in prison. You actually helped the case, you gave details all those months ago now that are actually highly incriminating, so I guess thanks for that
